Building Community Partnerships with Family-Run Organizations to Support Students and Families

Millie Sweeney, FREDLA
Jane Walker, FREDLA

2019 Conference on Advancing School Mental Health
November 8, 2019
Austin, TX
The Family-Run Executive Director Leadership Association (FREDLA)

- Started in 2013 by 16 Statewide Family Network Directors
- Dedicated to building strong, sustainable family-run organizations and together influence policy and practice to support children and families
- FREDLA is a partner in national TA centers and offers technical assistance to FROs, states and other stakeholders

What Is Family?

- Families are big, small, extended, nuclear, multigenerational, with one parent, two parents, and grandparents. We live under one roof or many. A family can be as temporary as a few weeks, as permanent as forever. We become part of a family by birth, adoption, marriage, or from a desire for mutual support.... A family is culture unto itself, with different values and unique ways of realizing its dreams; together, our families become the source of our rich cultural heritage and spiritual diversity.... Our families create neighborhoods, communities, states, and nations.

Polly Arango, Family Voices, Algodones, NM
Family-Run Organizations
What is a Family-Run Organization?

- Local or Statewide nonprofits
- Mission: Support families raising children, youth and young adults with behavioral health needs
- Board of Directors: Comprised of at least 51% family members with lived experience
- Leadership: Executive Director and majority of staff are family members of children with behavioral health needs
Where are Family-Run Organizations?

About 120 throughout the country

Listing of FROs per SAMHSA region:
What Do Family-Run Organizations Do?
With Families...

- **Information and referral:** Respond to phone calls for information on services or basic support

- **Peer Support:**
  - **Short term Navigation:** Help families find the services for their child
  - **Intensive support to families:** Wraparound, family preservation, care coordination and other intensive programs

With Families...

- **Targeted programs:** Early childhood, juvenile justice, child welfare, military families, substance use, developmental disabilities

- **Engage and support youth:** youth peer support, support groups, social activities, training

- **Screening:** Trauma, Protective factors

- **Training and education opportunities:**
  - Leadership skills
  - Understanding Special Education
  - Parenting - Strengthening Families, Nurturing Families
Parent Peer Support

A caregiver to caregiver approach that employs parents with lived experience trained to support other families with similar situations

Parent peer support activities include:

- **Support at all levels of intensity** - outreach to inpatient hospitalization - and across all settings - home, school, juvenile court, community
- **Provide information and education** about mental health, child development, etc.
- **Build sustainable skills** that increase resiliency and ability to address family needs
- **Model and foster relationships** between families and school staff, providers and others
- **Build natural support networks**
- **Assist families in navigating complicated systems and facilitating connection with services and supports**
- **Infuse family voice at all levels through modeling, mentoring and leadership skills**
Parent Peer Support Provider Roles

Parent peer support (PPS) is a caregiver to caregiver approach to supporting families caring for children, youth and young adults with mental health or substance use challenges. PPS is provided by a parent or caregiver with lived experience who is trained to assist other families by providing support, identifying resources, and facilitating access to services for the child and family. PPS can be offered individually or as part of a team.

Parent peer support is a critical component of a system of care for children and youth, builds effective engagement and can facilitate more positive outcomes for a family. This unique workforce can be found in a variety of settings including: family-run organizations, mental health centers, foster care programs, juvenile courts, emergency rooms, schools, state and local government entities, and residential treatment programs. PPS positions are typically funded through federal and state funds, contracts, grants and Medicaid.

PPS Providers have roles at all levels of service intensity, from community outreach to inpatient hospitalization, infusing family voice and family support at all levels.

- **Least Intensity Level Services**
  - Education, information and referral
  - Peer supervision and program management
  - Policy-making and advocacy
  - Data collection and evaluation

- **Low Intensity Level Services**
  - Training
  - Support groups
