Ready, Set, Integrate
School Mental Health Conference 2018

Ready, Set, Integrate:
Is your team ready to integrate mental wellness into your PBIS framework?

Karen Elfner Cox
Natalie Romer
Catherine Raulerson

2018 School Mental Health Conference

Who is joining us today?
- Youth
- Family
- Administrators
- School-based practitioner
- Community-based practitioner
- Researcher
- Technical assistance provider/consultant
- State leadership
- Other?

Objectives
Identify practices (and our lessons learned) for supporting districts integrating mental health supports into their PBIS framework.

- Recognize components of PBIS framework
- Describe practices for effective teaming
- Identify strategies for securing buy-in
- Identify key aspects of coaching and PD

Core Principles

Science
- Practices that work

Values
- Practices that impact quality of life

Vision
- Practices are doable, durable and available

Critical Components ("The How"):

MTSS & the Problem-Solving Process

Tier 3: Intensive, Individualized Interventions & Supports
The most intensive instruction and intervention based on individual student need, in addition to and aligned with Tier 1 & 2 academic and behavior instruction and supports.

Tier 2: Targeted, Supplemental Interventions & Supports
More targeted instruction/intervention and supplemental support, in addition to and aligned with the core academic and behavior curriculum.

Tier 1: Core, Universal Instruction & Supports
General academic and behavior instruction and support provided to all students in all settings.

Florida’s State Transformation Team on RtI (Dec. 3, 2018)
Integrating PBIS and Mental Health

- Improve depth and quality in prevention and intervention services within multi-tiered framework to increase likelihood of positive outcomes for all students
- Address current gaps in extant mental health and educational systems often operating in silos

Where to start?

The BIG Lesson:
Systems change is hard work.

The stakes are high.
Translating research to practice in schools is challenging.
There are no quick fixes, you’ll make mistakes, you’re learning.
Change means there will be barriers and resistance.
It takes a team working together, team members are different.
Acknowledge and celebrate success, no matter how small

DEFINING “THE WHAT” AND “THE HOW”

Continuous Improvement towards a Shared Vision

Evaluate
Shared Vision
Implement
Needs Assessment
Analyze
Action Plan

Issue Brief
Mental Health and Academic Achievement

You Need to Know: Mental Health Matters

17%
8%

Suicide
Attempted Suicide

12

1/3

Among students in grades 9-12 in the U.S. during 2013-2014, 17.8% of students attempted suicide and 8.8% attempted suicide one or more times in the previous 12 months.

Early detection of mental health concerns leads to improved academic achievement and emotional adjustments. 
Our Shared Vision

**Florida will develop and sustain integrated, multi-tiered systems of support that promote the mental health of, and advance wellness and resilience of, students within family, educational and community settings.**

Our Shared Definition of Mental Health

**The presence of social, behavioral, and emotional well-being and resilience factors, as well as minimal social, behavioral, and emotional problems, and the reduction of risk factors.**

Youth Mental Health

<table>
<thead>
<tr>
<th>Negative Symptoms (Mental Illness)</th>
<th>Positive Indicators (Wellness or Well-Being)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Anxiety, Depression, and other forms of internalizing problems</td>
<td>Life Satisfaction and Happiness</td>
</tr>
<tr>
<td>Disruptive Behaviors, such as defiance, rule violations, substance use</td>
<td>Strong Social Relationships</td>
</tr>
<tr>
<td>Trauma and other environmental stressors</td>
<td>Risk Factors</td>
</tr>
<tr>
<td>Thinking errors, behavioral withdrawal</td>
<td>Building blocks of well-being (gratitude, empathy, perseverance)</td>
</tr>
<tr>
<td>Risky/unsafe settings</td>
<td>Basic needs are met</td>
</tr>
<tr>
<td>Inadequate and inconsistent settings</td>
<td>Social skills</td>
</tr>
<tr>
<td>Resilience Factors</td>
<td>Healthy interactions (minimal bullying, high support)</td>
</tr>
</tbody>
</table>

BIG PICTURE Lessons Learned:

- **Do they know what they have committed to implementing?**
  - It is a way of work
    - Not a program/practice
    - It will take time; 3-5 years
    - We are initial implementers
    - Identify target outcomes and share data ongoing as impact of work
  - We are initial implementers
    - We are among the first to “do this” way of work
    - Although it has essential components, it looks a bit different for each implementer because it is contextual

Ready, Set, Integrate
School Mental Health Conference 2018

SECURING BUY-IN FROM KEY STAKEHOLDERS: ESTABLISHING “THE WHY”

Impact of School Mental Health on Student Outcomes
Growing body of literature demonstrates positive effects on students’:
- Academic outcomes
- Social-emotional outcomes
- School-wide academic and behavioral outcomes
- Suldo, Gormley, DuPaul, & Anderson-Butcher, 2014

Theory: Academic Effects of Mental Health Interventions

Intervention → Increased Student Engagement → Increased Academic Achievement

What is Buy-In?
“Accepting an idea or a goal and making it part of your everyday frame of reference.”

Intellect + = Change in Behavior
(Kautt, G. G., 2011)

In your work.....
What behaviors demonstrate buy-in?
Who are key stakeholders?

Managing Complex Change

- Vision
- Skills
- Incentives
- Resistance
- Action Plan

= Change
= Confusion
= Anxiety
= Resistance
= Frustration
= False Starts

Adapted from Knoster, T.
Initially Focused on Things Needed to Drive Work
- Building vision/mission
- Effective Teaming
- Building consensus/knowledge mental health supports
- Developing Meeting Structure

Then Focused on Building Practices for Complete MH
- Universal Screening
- Selection of EBP
- Using Data to Drive Decision Making

Example: Defined Team Commitments
- Coaching staff to implement student curriculum focused on developing social, behavioral, and emotional skills.
- Training staff to create mental health friendly classrooms.
- Collaborating with community partners to help foster resilience and increasing protective factors.
- Identifying negative indicators with school based teams to help minimize risk factors for internalizing and externalizing problems.
- Providing indirect support to youth in crisis or with chronic mental health needs.

Example: Defined School Commitments
- Implement SEL Curriculum with fidelity
- Completion of Universal Screener
- Use student outcome & fidelity data to drive evaluation of MTSS for MH across tiers.
- Regular monthly PBIS/Leadership Team Meetings.
- Use Data Based decision making through the 4 step problem solving process.
- Time for PD and coaching in areas identified by team for improvement.

Lessons Learned: Be explicit w/teams
Are we REALLY committed to mental wellness promotion in our district/schools?
Why are we committed to it?
- Share relevant data on need (the why) in your context
- Identify target outcomes and share data ongoing as impact of work

What will it take to be committed?
- Clearly identify early and hold teams accountable
- Establish partnerships in teaming structures
- Commit to selection of evidence-based practices, fidelity tracking.

If we don’t establish buy In....
What it looked like:
- Limited meeting time
- Lack of structure in meetings and support for systems continuous improvement
- Limited professional development time for supporting necessary practices
- Flexibility in practices (limited fidelity, universal assessment optional)

Who wants change?
Who wants to change?
Who wants to lead the change?
Which Team? Who’s on It?

Review Current Teams:
- Team Responsibility
- Team Membership
- Team Meeting Frequency
- Team Outcomes/Productivity

Can a current team’s responsibilities be expanded?
Can a current team be dissolved/merged?

Ensuring Team Effectiveness...

Effective Team Structures Concerns:
- Team Composition and Membership
- Team Roles and Fluent Facilitator
- Team Mission
- Team Meeting Schedules
- Group Norms
- Defining Consensus

Coming Together to Achieve a Common Goal: Partnering and Teaming

Engaging partners/sharing info:
- Prioritizing meeting time
  - Planning and follow-up
  - Maximize meeting time by using other venues for information sharing (e.g., meeting folder, workgroups, email list, etc.) and adhering to the agenda
  - Conduct ongoing evaluation and problem solving of the meeting itself
- Feedback, learning, and consensus reaching activities
  - Technology (e.g., Plickers, Padlet)
  - Feedback forms
  - Group activities
  - Facilitated discussions using templates and advanced organizers
  - Ongoing evaluation
  - Professional development

Data-based Problem Solving Prerequisites

PROFESSIONAL DEVELOPMENT AND COACHING
Focus on Professional Development

Initial Trainings Skill Building
  - Second Step
  - Mental Health Friendly Classroom
  - MH Awareness and TIC

Ongoing Coaching Support Job Embedded:
  - Grade Level PLCs
  - School Leadership Team Meetings
  - Use of program fidelity tools to monitor implementation and target future PD

Explicit Instruction
Modelled Instruction
Guided Practice
Independent Practice with Feedback

What is Systems Coaching?

Systems Coaching (v): application of a set of skills that builds the capacity of school/district leadership teams to implement MTSS aligned with the school/district improvement plan(s) in order to enhance student outcomes

What does this mean?

- Not necessarily a person, but a set of skills & activities coordinated by a leadership team
- Leadership & Coaching are BOTH required for sustainable change. A reciprocal relationship must exist between leadership & coaching to produce desired outcomes at any level of the educational organization.

Leadership + Coaching = Sustainable Change

Leadership Characteristics:
- Vision, focus, consistent message of implementation
- Focus on schools
- Relationships based on respect & shared responsibility
- Expert problem-solving
- Investment in Effective PD

Coaching Responsibilities
- Effective interpersonal communication
- Data-based problem-solving
- Content Knowledge
- Organizational Change
- Integrated multi-tiered system
- Academic/Behavior/Social Emotional Instruction
- Families/Communities
- Team Facilitation
- Support leadership
- Provide PD
- Evaluate impacts

Lessons Learned: Need to Identify...

Coaching assets/champions to promote integration of Mental Wellness

How professional development will occur and utilize job embedded coaching?

Skills will teams need to promote integration within a MTSS

The current process in your district/school for selection of an Evidenced Based Practices

Pilot Schools with Best Outcomes
- Focused PD Efforts & Ongoing Leadership Team Meetings
- Data Access and Use is consistent focus
- Administrator buy in and support of team as leaders
- Connection to School Improvement
- Increased PBIS Fidelity is continued focus

Pilot Schools with Limited Outcomes
- Reactive approach
- Leadership changes, lack of stakeholder buy in
- Lack of PD time for initial skill development
- Challenges with Data Access and use

EVALUATE THE CAPACITY OF YOUR CURRENT PBIS FRAMEWORK
Integrating PBIS and Mental Health

Barrett, Eber, & Weist 2013

Evaluating Your Tier I System

Are we meeting ALL of our student needs?
Overall student population and needs of various subgroups (proportionality)

Is data used to initially identify Risk and Resilience Factors

How do we maintain implementation of successful practices as part of Tier I System

Is our PBIS Framework in place with fidelity?
If not, what supports are needed to increase fidelity?
If yes, what changes need to be made to Tier I System to further support mental wellness

Building on the Foundation of PBIS

Pilot Schools Baseline Year BOQ

Baseline Fidelity Of Tier I PBIS components

Obj. - Increase the % of schools implementing with fidelity EB MH programs at the Tier 1 level.

Questions? Comments?

- Cat Raulerson: craulerson@usf.edu

To Integrate & Build on PBIS we Need:

Buy-in To Integrate Mental Health
Regular Meetings, Team Roles, Meeting Structure
Data-based Decision Making Skills
Consistent Tier I Practices:
- What we teach, how and when we teach it
- Reinforcement of what is taught
- Effective and consistent responses to problem behavior
We appreciate you joining our session.
