Sharing Our Journey: West Virginia’s Expanded School Mental Health (ESMH) Initiative

*From Vision to Outcomes*

20TH ANNUAL CONFERENCE ON ADVANCING SCHOOL MENTAL HEALTH

NEW ORLEANS, LA

NOVEMBER 6, 2015
Learning Objectives

Participants will be able to:

✓ Describe the role of state agencies in advancing school mental health;

✓ Identify important elements in creating and sustaining state level capacity;

✓ Identify at least three resources that can be used to successfully implement ESMH.
Agenda

1. History of ESMH in West Virginia
2. Perspectives:
   ◦ State education agency
   ◦ State behavioral health agency
   ◦ Local school/behavioral health provider
3. Future Directions
4. Summary and Discussion
Introductions

Barbara Brady, PhD
School Counseling Coordinator, WV Department of Education

Jackie Payne, MSW
State Coordinator, WV Project AWARE
and Past Director, Division of Child and Adolescent Mental Health, WV Bureau for Behavioral Health and Health Facilities/DHHR

Jessica Watt, M.Ed, NCC, LPC, ALPS
School Counselor, Madison Elementary, Ohio County Schools

Tiffany Pittman, MA, LPC, AADC
School Mental Health Coordinator, ESMH TA Liaison
Marshall University School of Medicine and ESMH Technical Assistance Center
Acknowledgements

Center for School Mental Health, University of Maryland

National Community of Practice, IDEA Partnership

School Based Health Alliance
WV School System

- 280,000 public school students
- 55 county school districts ranging in size from 900-28,000 students
- High overhead, facility costs
- Limited resources/geographic challenges
- 80% graduation rate
**Definition**

*Expanded School Mental Health* refers to programs that build on the core services typically provided by schools. It is a three-tiered framework that includes the full continuum of:

- Serves all students
- Prevention
- Early intervention
- Treatment

- A shared responsibility between schools and community providers

% of students benefiting from services
WV ESMH Structure

WVDE and DHHR Partnership
WV Department of Education and Bureau for Behavioral Health, Children’s Division

Expanded School Mental Health Steering Team
Representative of various stakeholder groups including child-serving state and local agencies, public health, state and local education agencies, families and faith-based organizations.

Marshall University
Technical assistance, evaluation, data collection and analysis, consultation, staff support

Marketing and Communications Team

Quality and Best Practices Team

Infrastructure and Accountability Team

ESMH Network
- All interested stakeholders
- Regular updates and input, annual state/regional meeting, participation on action teams
State Infrastructure

Statewide ESMH Steering Team Co-Chaired by WVDE & WV BBHHF and facilitated by Marshall U. Technical Assistance Center

- Operating guidelines; member MOA; orientation/Meets 6 x/year
- Detailed work plan
- Monthly CoP calls with grantees
- Consensus statement on family / youth involvement
- Tools and resources: info briefs, video testimonials, website
- Professional Development/ Conference Strands
  Annual school health workshop
What we agree on . . . It takes a village

A cross-systems team approach is critical to meet the behavioral health needs of WV students and ensure social and emotional well-being

- Schools and communities must work together for the education of our children.
- A multi-tiered system of student support is needed that connects students, home, school and community.
- Policies need to drive multi-tiered systems of student supports of the day.

West Virginia Community Schools
Building community and school partnerships
The Lineage of ESMH in WV

2006
- WVBHHF, WVDE & MU discuss partnership

2007
- State Steering Team Formed
- MOU between WVDE and DHHR-BBHHF

2008
- School Survey Visited Exemplar States
- Pilot NASBHC Mental Health Capacity Building

2009
- BBHHF award 7
- Pilot ESMH Planning
- Joined IDEA Partnership
- WVDE policies align with ESMH
- ESMH Protocol for School Counselors
- Innovation Zone Grants include ESMH focus
- Alternative School Pilots (Innovation Zone Grants)
- Community Schools
- School Crisis Prevention and Response Template
- Mental Health Crisis Plans
- Presented at National SBMH Conf.
- WVDE awarded Project AWARD Grant 2014
- Steering Team serve as state advisory for Project AWARE

2010-15
- ESMH Model for WV
- Info Briefs & Toolkits
- 1st State conference/ESMH Strand KidStrong Conference (2012)
- WVDE policies align with ESMH
- ESMH Protocol for School Counselors
- Innovation Zone Grants include ESMH focus
- Alternative School Pilots (Innovation Zone Grants)
- Community Schools
- School Crisis Prevention and Response Template
- Mental Health Crisis Plans
- Presented at National SBMH Conf.
- WVDE awarded Project AWARD Grant 2014
- Steering Team serve as state advisory for Project AWARE
Vision

Every student in WV will benefit from a school environment that supports social and emotional well-being to achieve his/her full potential.
Mission

TO DEVELOP AND STRENGTHEN POLICIES, PRACTICES AND SERVICES THAT PROMOTE LEARNING AND SOCIAL-EMOTIONAL WELL-BEING FOR ALL OF WV’S YOUTH THROUGH A COLLABORATIVE PROCESS THAT ENGAGES SCHOOLS, FAMILIES, AND COMMUNITY-BASED AGENCIES.
Work Plan Goals

Goal 1: A state interagency infrastructure to sustain Expanded School Mental Health

Goal 2: Communication plan

Goal 3: Adopt an ESMH framework

Goal 4: WV standards and protocols to ensure quality/fidelity

Goal 5: Evaluation design and reporting process

Goal 6: Ongoing TA

Goal 7: Sustain existing and create new comprehensive school mental health models.
### Goal 7: Develop a plan to sustain existing and create new comprehensive school mental health models

**Team Leader:** Kelli Caseman; **Team Members:** Tiffany, Richard, Jackie, Linda W., Linda A.

#### Objective

7.1 Produce a preliminary report on how other states fund direct services for ESMH

- A. Review literature on financing policies of other states
- B. Get U of MD and GWU reports on financing
- C. Present findings to ESMH Steering Team
- D. Complete a report with recommendations for WV

7.2 Identify costs for ESMH
   - Tiers 1, 2, 3

- A. Ask ESMH grantees to provide examples of their budgets – costs and revenues.
- B. Survey funded schools to identify their funding sources
- C. Draft sample startup and sustainability budget and sources

7.3 Produce a review of literature regarding academic and economic benefits/costs of ESMH

- A. Define work plan/purpose/questions to answer in such a document
- B. Request funding from SSJHWF

7.4 Develop toolkit and technical assistance to guide communities in establishing financial stability when implementing the ESMH model.

- A. Compile existing resources on financial stability and sustainability
- B. Review and select resources for a tool kit
- C. Define role of technical assistance
- D. Disseminate final tool kit to schools and communities

ESMH Integration: Policy, Programs, and Practices

DR. BARB BRADY

SCHOOL COUNSELING COORDINATOR, OFFICE OF MIDDLE/SECONDARY LEARNING
ESMH Integration into WVDE Policies

**Policy 2315:** Comprehensive School Counseling Programs

**Policy 2510:** Assuring Quality of Education: Regulations for Education Programs

**Policy 2425:** Community Schools: Promoting Health, Safety, Well-Being and Academic Success of Students

**Policy 4373:** Community Schools: Promoting Health, Safety, Well-Being and Academic Success of Students

http://wvde.state.wv.us/policies/p4373-new.pdf
Policy 2510: Assuring Quality of Education: Regulations for Education Programs

Schools will implement...

- Comprehensive School Counseling Programs
- Advising/Mentoring Programs
- Personalized Education Plans
- Comprehensive Career Investigation
  - Student Portfolios (grades 6 – 12)
- Community partnerships
Policy 2510: Mentoring/Advising Students

Schools will...

implement an advisory program that ensures students have **meaningful and supportive relationships** with adult advocates and peers to **personalize each student’s learning experience**. Schools will implement a **standards-focused** advisory program utilizing **evidenced-based** practices during the instructional day.
Policy 2510 - Mentoring/Advising Students

Schools will engage student advisors in utilizing each student’s career awareness activities to develop the Personalize Education Plan (PEP). Advisory will assist students and their parents to utilize their various interest and learning style inventories and academic assessments to guide educational planning and career choices.
3.1. The CSCP is an integral part of the total school program and is aligned with the school’s mission.

The CSCP is a proactive, systemic approach to assist students with the acquisition of attitudes, knowledge, skills and behaviors necessary to maximize student success and preparation for a variety of postsecondary options.

The CSCP provides universal prevention for all students, targeted interventions for at-risk students and intensive interventions for the most at-risk students.
3.1. (continued) The CSCP is standards-based, designed to *developmentally and sequentially* address the WVSSS within each programmatic level.

- Academic and Learning Development
- Career Development and Life Planning
- Personal and Social Development
- Global Citizenship

The CSCP utilizes *school and community data* to identify student needs in relation to the CSCP and *to set annual priorities* for the WVSSS.

A certified school counselor, in collaboration with school and community stakeholders, will develop an *Annual CSCP Plan* in order to coordinate and implement a CSCP designed to address student needs.

Recourses and templates for developing school mental health crisis guides

Preliminary DRAFT due January 1, 2015

Updated Annually by August 1

Addressing Mental Health in School Crisis Prevention & Response

A Resource Guide for West Virginia Schools
SCHOOL COUNSELOR’S ROLE

Tier 1
- Coordinate with school leadership team to ensure the WV Student Success Standards are collaboratively delivered to all students within the school’s programmatic level(s).
- Collaborate with school leadership team to ensure Student Support Programs (PBIS, ESMH, Mentoring, Student Advisement, etc.) are in place.
- Assist individual classroom teachers in promoting positive behavior management/support programs.
- Collaborate with school, district, and community personnel to ensure crisis prevention programs and crisis plans are in place and being utilized.
- Utilized universal screenings, surveys, academic, career & needs assessments to identify student needs and set priority goals.
- Act as a resource and referral agent for students, parents, and staff.

Tier 2
- Collect individual student data/information and prepare for role as a support advocate.
- Assist school-based teams in collecting and analyzing data to identify struggling students due to academic, social, behavioral, and/or emotional problems.
- Assist in identifying and implementing research-based interventions.
- Assist in evaluating academic and behavioral progress following interventions.
- Initiate/facilitate/coordinate student support groups.
- Serve on SAT/RTI/504/IEP Intervention Teams.
- Make appropriate referrals.

Tier 3
- Refer to appropriate resources, agencies, school programs, etc.
- Assist the RTI/SAT/504/IEP in identifying interventions, making referrals and evaluating and determining the fidelity of interventions.

TARGETED INTERVENTIONS
5-10% of students

INTENSIVE INTERVENTIONS
1-5% of students

All Students
UNIVERSAL PREVENTION
Meets the needs of 80-90% of students
THREE TIER PREVENTION MODEL – School Assessment

List specific activities and programs currently in place in your school to support students’ academic, career and personal social development. Think about these activities in terms of your delivery systems: personalized student planning, responsive services, integrated WVSS Standards delivery and student supports. Develop a second chart outlining possible programs or activities you could implement in your school to better support all students.

WV School Counseling Model
The Counselor’s Role in Leading the CSCP and ESMH
PBIS – School/Community Partnership

WVDE Supports...

PBIS Summer Academies to train school teams as well as monitoring, Technical Assistance and Coaching

Goal is to move toward statewide implementation

MU Center for Autism plan is to work with a cross-systems team to develop a WV Multi-tiered System of Support that incorporates:

- School counseling
- ESMH
- Community Schools
- PBIS
- Support for Personalized Learning
Policy 4373: Table of Contents

Ch. 1  Expected Student Dispositions
Ch. 2  Student Rights and Responsibilities
Ch. 3  Planning for Policy Implementation
Ch. 4  Inappropriate Behaviors and Meaningful Interventions and Consequences
Ch. 5  Procedures for Addressing Allegations of Inappropriate Behaviors
Ch. 6  Procedures for Taking Action on Substantiated Inappropriate Behaviors
From Policy to Practice

ESMH Implementation Example (2013-14)

Joint partnership between Marshall University, Bureau for Behavioral Health, Office of School Improvement and Office of Special Programs to implement Expanded School Mental Health Model (ESMH):

Safe, Supportive, School Grant (S3):
- 11 of the 22 S3 Schools will receive technical assistance around Community Schools and ESMH
- 11 schools already have MH services in place therefore were not offered TA
- Three S3 Schools have implemented Mental Health Services
- Six S3 Schools are working towards implementing Mental Health Services
- One S3 School is working to improve comprehensive Mental Health Services.

Priority Schools: (Community support – using available funds)
- eight of the twenty-nine Priority Schools were provided technical assistance around Community Schools and ESMH
- seven schools already have MH services in place therefore were not offered TA
- One Priority School has implemented MH Services.
- Five Priority Schools are working towards implementing Mental Health Services.
Policy 2425: Community Schools: Promoting Health, Safety, Well-Being and Academic Success of Students

A community school is both a place and a set of partnerships between the school and other community resources.

Mental Health Capacity Building - Ten Critical Factors: http://cshm.umaryland.edu

Coalition for Community Schools: http://www.communityschools.org
Children’s Mental Health: Access, Availability, Coordination and Continuity of Care

Jackie Payne, MSW
Past Director, Division of Child and Adolescent Mental Health, WV Bureau for Behavioral Health and Health Facilities/DHHR
State Coordinator, WV Project AWARE
The mission of the Bureau For Behavioral Health And Health Facilities is to ensure that West Virginians with mental health and/or substance use disorders, intellectual/developmental disabilities, chronic health conditions or long term care needs experience quality services that are comprehensive, readily accessible and tailored to meet individual, family and community needs.

We envision healthy communities where integrated resources are accessible for everyone to achieve wellness, personal goals and direct their future.
Division of Child and Adolescent Mental Health

- Single state authority for children’s mental health charged with monitoring and improving the children’s mental health service delivery system
- Provides leadership and technical assistance to facilitate an effective system of care for children and their families
- Develops/maintains partnerships and collaborations across all child serving systems, at both the state and local level to ensure access to quality behavioral health services and supports for children and adolescents with and/or at risk for serious emotional disturbances
- Responsible for overseeing the implementation and evaluation of the federal block grant as well as programs supported with state funding
Physical illnesses, intellectual/development disabilities, substance use and mental disorders cost money and lives if they are not prevented, are left untreated, or are poorly managed.

Systems of care and support have been and remain in certain areas, limited and not readily available or accessible.

Certain populations are not served or are underserved and that services crossing the boundaries of age has not always been a priority.
Bureau Acknowledgements

Understanding and analyzing data to design strategies for comprehensively assessing prevalence and gaps is necessary for ongoing system planning and development.

Partners and collaborations are essential across child serving systems/agencies.

Strategies must be flexible to ever changing environments, while always keeping the end in focus.

Assembling an integrated team of knowledgeable and experienced staff and recruitment of other experts will support system improvements.
ESMH Pilot Sites

12 Schools, 7 counties
3,700 students
Funded by BBHHF

Community Partners
Youth Health Service, Inc.
Prestera, Inc.
Ohio County Schools
Southern Highlands, Inc.
Rainelle Medical Center
Mental Health Symptoms

The Strengths and Difficulties Questionnaire (SDQ) was used to measure mental health symptoms. SDQs were completed at the start of services, with follow-up completed every 6 months until case closure. 78% of the students improved or maintained their scores at follow-up, which indicates that students were able to successfully remain in school and avoid more intensive services.

Key Initiatives

WV System Of Care

A public-private-consumer partnership dedicated to building and maintaining effective integrated and coordinated community based services for children and youth with or at-risk for behavioral health related challenges and their families

Expanded School Mental Health (ESMH)

Coordinated and integrated partnerships between schools and behavioral health providers

Full continuum of mental health services, including education, prevention/early intervention and treatment

Supporting five entities serving 12 schools in 7 counties impacting nearly 4,000 students
Key Initiatives

Statewide Suicide Prevention and Intervention

Statewide Family and Youth Support Network

Children’s Clinical Outreach Services Liaisons

Transitioning Youth

Regional Youth Service Centers
Statewide Behavioral Health Youth Service Network

Thorough needs assessment and service utilization analysis resulted in repurposed funding and system change

Cross-system/Cross continuum effort based approach to programming for youth with substance use and co-occurring disorders

6 Regional locations emphasizing innovative, close to home services for children and families at the right place and at the right time
Regional Youth Service Centers

Single Point of Entry
24/7 Referral Line
Engagement, Diagnostic and Out-Patient Services
Non-Traditional Service Locations
Tele-Medicine Expansion
Collaborative Services
Project AWARE

The WVDE was awarded a 9.7 million dollar Substance Abuse and Mental Health Services Administration’s (SAMHSA) grant on September 30, 2014 that will focus on mental health needs of children, families and communities through the public school system over the next 5 years (75% to 3 Demonstration Local Education Agencies).
The grant’s goals are twofold:

1. Address the mental health needs of children, youth, families and caregivers;

and

2. Assist communities with the implementation of Mental Health First Aid and Youth Mental Health First Aid programs.
Focus on students in PreK through grade 12, ages 3 to 21 years

Three counties will serve as the demonstration sites to guide the development of a statewide sustainable systems’ approach to improve mental health services using a community schools approach.

The three county school systems (LEAs) are in Berkeley, McDowell and Wood.
Community Schools recognize that school and community partnerships are essential to student success

✓ Students are actively involved in learning and their community
✓ Families are involved with their children’s education
✓ Students are healthy – physically, socially and emotionally
✓ Students live and learn in a safe, supportive, and positive environment
✓ Schools are engaged with families AND communities
✓ Schools become centers of the community and are open to everyone—all day, every day, evenings and weekends
Engagement and Partnerships

Strong school communities engender strong students. The school community’s purpose is to ensure that each student acquires the knowledge, skills, habits, and attitudes necessary for success in school and in life.
WV Project AWARE Goals

1. Improve the state and local collaboration between public, private, community, and family partners to ensure the health, wellness, and resilience of school aged youth using the Interconnected Systems Framework.

2. Increase the number of professionals and community members who have been trained to: a) promote child and adolescent social and emotional health in schools and the community, and b) identify and refer youth who need behavioral health services.

3. Increase the number of schools and communities using the community schools approach.
WV Project AWARE Goals

4. Expand efforts to meet the social, emotional and behavioral needs of students by

   a) Creating and maintaining a safe and supportive school and community environment for all students;
   b) Providing or coordinating early intervention programs designed to meet the needs of students identified as at-risk for a specific problem or concern; and
   c) Connecting students with intensive need to individualized services and treatment.

5. Decrease the percent of students who report feeling unsafe at school, participating in school violence, using alcohol, tobacco, or other drugs, and feeling depressed or anxious.

6. Develop a plan for the replication, expansion and sustainability beyond the grant period
Building upon ESMH Partnerships & Successes

- State Advisory to WV Project AWARE
- Increased membership
- Role of the State Advisory Team
Positive Youth Development

Positive Experiences +
Positive Relationships +
Positive Environments

Madison School-Based Mental Health Programs

Northwood Therapy (since 2002)
Group, Individual & Family Therapy in coordination with Northwood Health Systems

A Center for HOPE & Change (est. 2012)
Individual and family counseling & Trauma Therapy.
Coordination with local agencies.
After school psycho-educational groups.
Impact on Students & Families

Having the services at school during the school day reduces the barriers for children to get needed services and minimizes the disruption to their education.

First year outcomes include improved attendance, increased social skills, decreased aggression, and improved relationships.

In addition, Madison Elementary was named a 2012 WV Title 1 Distinguished School - one of 12 out of 329 Title 1 schools in West Virginia.
Take Challenges in Stride

- Scheduling time for students to be seen during the school day
- Having a regular, confidential space for children to receive services
- Staffing
- Family participation and commitment
- Keeping cases open through the summer
- Delayed gratification

Keep communicating and collaborating.
Take a deep breath!

A healthy student is a teachable student

West Virginia Expanded School Mental Health Initiative

Meeting the social and emotional needs of students prepares them to learn, increases their capacity to learn, and increases their motivation to learn. If also improves attendance, graduation rates, and reduces

A Resource Guide for West Virginia Schools

Addressing Mental Health in School Crisis Prevention & Response
A jointly sponsored effort of the West Virginia Department of Education and the West Virginia Department of Health and Human Resources

“Expanded school mental health” refers to programs that build on core services typically provided by schools. Expanded School Mental Health is a framework that:

- includes the full continuum of prevention, early intervention and treatment
- serves all students
- emphasizes shared responsibility between schools and community mental health providers.

The WV ESMH Initiative is developing tools and resources for educators, behavioral health professionals, families and ESMH grantees. Together we can address the mental health needs of West Virginia’s students, and reduce barriers to learning.

2012-2013 ESMH Planning Retreat Documents

- Organizational Chart
- Mission, Principles, and Goals
- Steering Team 2014
- ESMH Member Agreement
- ESMH Memo Of Understanding between WVDE and WVDHHR
- Steering Team Operating Guidelines
- Summary West Virginia ESMH 2013
Closing Summary

Strategies:
1. Invest in planning
2. Expand infrastructure and partnerships
3. Build on existing structures, policies
4. Incorporate ESMH into other initiatives
5. Identify tiered services/initiatives
6. Identify and address stakeholder priorities
7. Communicate!
Challenges

Parent and Youth Involvement
Workforce
Staff turnover – state and local
So many initiatives/still lack awareness and coordination
Future Priorities

Operationalize consensus statement on parent and youth involvement

Collaborate with PBIS and Community Schools Initiative to create cross-agency multi-tiered system

Collaborate with other agencies to create repository to reduce duplication of efforts and enhance availability of services

Expand our dissemination network
