

MHTTC

Mental Health Technology Transfer Center Network

Funded by Substance Abuse and Mental Health Services Administration

### The MHTTC Network – School Mental Health Initiative

[The Mental Health Technology Transfer Center \(MHTTC\) Network](#), funded by the Substance Abuse and Mental Health Services Administration (SAMHSA), is a collaborative Network that supports resource development and dissemination, training and technical assistance, and workforce development for the mental health field. The Network includes 10 Regional Centers, a National American Indian & Alaska Native Center, a National Hispanic & Latino Center, and a Network Coordinating Office.

In August 2018, the MHTTC Network received supplemental funding to address the need for further implementation of mental health services in school systems. The Regional and National Centers provide technical assistance and develop resources, trainings and events around various school mental health topic areas, including evidence-based identification, early intervention, and treatment practices, youth suicide prevention, school wellness, and trauma-informed practices in schools.

During the current COVID-19 public health crisis, the MHTTC Network remains open and available to assist the school mental health workforce. While in-person learning opportunities are postponed until further notice, the Network is working quickly to offer virtual learning opportunities in the interim.

To view a compilation of MHTTC resources specific to school mental health that can be useful when coping with the effects of widespread public health crises, in addition to school mental health resources from other reputable organizations, please visit our website [here](#).

For access to *all* MHTTC trainings and resources, visit the Training and Events Calendar [here](#) and the Products and Resources Catalog [here](#).

### Stay informed! Subscribe to *MHTTC Pathways*

*MHTTC Pathways* is a monthly eNewsletter that keeps you informed about what is happening within the MHTTC Network. It highlights events, training opportunities, resources, and the latest Network products. Special features help you stay updated on the latest on evidence-based practices, implementation science, and workforce development.
