The School Health Interdisciplinary Program (SHIP) is a multifaceted approach to continuing education. SHIP provides comprehensive training on coordinated school health. The conference focuses on topics vital to school professionals. SHIP is committed to advancing quality and sustainability in school health with this year's theme being **Advancing Innovation and Best Practices in School Health**. Training will focus on helping school-based professionals understand core concepts in the school health field, including best practice strategies and policy across a three-tiered framework of healthcare.
