

The Maryland Youth Care Coordinator Training Requirements (Effective 5/13/2020)

- I. **Child and Adolescent Needs and Strengths assessment (CANS) Training:** The Behavioral Health Administration (BHA) requires that all youth care coordinators are trained to **administer, score, and interpret the CANS. This training requires an annual renewal.** COMAR 10.09.90.09 states that a comprehensive psychosocial assessment must be completed for every enrolled youth. The intent and interpretation of this regulation by BHA is that this requirement is met through completion of the CANS. Certificates of completion for both the initial training and annual renewals are part of care coordinators' training record and are checked by the Local Behavioral Health Administration (LBHA)/Core Service Agencies (CSAs) / BHA during annual site visits. Information on how to access the CANS training is available on the [YCC resources](#) website.
- II. **MD Behavioral Health Youth Care Coordination Training Series:** For NEW youth care coordinators and NEW supervisors (*Training is available at no-cost online, www.mdbehavioralhealth.com*)
