

At Bloom Health Centers, we are committed to disrupting the old ways of doing things.

We've designed a unique Care Team model that brings together qualified professionals who design a custom care program for each patient allowing you to communicate, collaborate, and ultimately improve patient outcomes.

By accepting all insurances for the care we provide, we've removed barriers to getting the help that too many patients just couldn't get around. Taking this approach provides an added benefit to you: We handle the tasks of revenue cycle management and other key administrative functions so that you spend more time with your patients.

Our name and our brand are new. But our leaders, providers, and staff that have come together around this effort are no strangers to mental health care. It has been our careers, our passions, and our lives' work.

And now, Bloom Health Centers represents a brand new vision for an industry we love.

Access to all. Frictionless delivery of care. Better benefits to everyone in the provider community.

Welcome to Bloom.

Bloom Health Centers is the largest outpatient mental health provider in the Mid-Atlantic region with locations in Maryland, DC, and Virginia.

We meet our patients where they are to bridge the chasm between today's challenges, unlocking hope for a better future, and creating opportunities for everyone to bloom into their full potential. Together, we can create a world where no one feels alone, providing the highest quality mental healthcare.

We are currently hiring Psychiatrists, Physician Assistants, and Nurse Practitioners to join our team and we invite you to be a part of that growth.

Bloom employment advantages:

- Competitive compensation and excellent benefits
- Telehealth and in-person psychiatric outpatient appointments
- Flexible work schedule
- Innovative support teams working within a Care Team model
- Professional growth opportunities and training
