Seeking Feedback on a New Assessment Platform for School Mental Health

3C Institute and the National Center of School Mental Health (NCSMH) are collaborating on a grant from the National Institutes for Mental Health (NIMH) to develop a unique assessment platform for SMH providers. The SHARE (Student Health Assessment, Response, and Evaluation) software system will streamline administration, scoring, and reporting of validated MH and MH-related assessment measures for screening, progress monitoring, and evaluation of student mental health and well-being. SHARE will enable SMH providers to collect data from teachers, caregivers, and students themselves and provide tailored professional development resources to support use of that data to inform treatment planning and MH services for youth.

We are seeking clinicians (licensed psychologists, social workers, or counselors) currently working in K-12 schools to support student mental health and well-being. Clinicians may be employed by districts/schools or community behavioral health organizations working in schools.

We need your help to make sure the SHARE system is easy to use and feasible for regular use by SMH providers. As part of our iterative design and development process, we would like you to review SHARE and provide your feedback and recommendations.

We will ask school mental health clinicians to:

1. **Complete a brief online survey** to assess your level of experience and comfort using MH assessments;
2. **Complete an online interactive walkthrough** of the current SHARE assessment platform using hypothetical student (**Note: no real student data will be collected during this study**); and
3. **Complete rating scales** to rate the quality, usability, and value of each component of SHARE and provide suggestions regarding how to improve the SHARE system.

Review and completion of surveys will take approximately **2 hours**. You will be able to save and return over multiple sessions as needed over a **2-week review period**.

As our thank you for participating in this study, you will receive a **$100 online gift card**.

Please click [here](#) to express your interest in participating in this study.

**Key dates:**
- We will select participants from those who **sign up by December 1, 2023**.
- We will notify you and share login information with participants no later than December 5, 2023.
- All reviews must be completed no later than December 15, 2023.

If you have **any questions**, please contact Melissa DeRosier, Principal Investigator, at derosier@3cisd.com or Sharon Hoover, Co-PI, at shoover.som.umaryland.edu.

**Thank you for your consideration and we greatly appreciate all the work you do to support student mental health and well-being!**
