

Our Strategic Goals 2025-2026

UMB Center for Infant Study and School Mental Health Program

1. Provide High-Quality Services

- a. Secure another three-year CARF Accreditation. For more information, visit www.carf.org.
- b. Maintain funding to sustain both prevention and treatment services.

2. Demonstrate Accountability Through Data Tracking

Strengthen systems for monitoring, evaluation, and data reporting to ensure transparency and continuous improvement.

3. Increase Community Outreach

Expand engagement efforts to enhance our program's visibility and impact within the broader school community.

4. Enhance Cultural and Linguistic Accessibility

In response to feedback from clinicians, funders, partners, stakeholders, and annual census data, increase the availability of program materials and paperwork in Spanish to better serve Spanish-speaking populations.

5. Improve Efficiency Through Technology

Collaborate with the Department of Psychiatry at the University of Maryland to acquire and implement technologies that support staff efficiency and streamline job functions.

6. Invest in Training and Workforce Development

Continue prioritizing professional development opportunities and training initiatives to strengthen the current and future behavioral health workforce.
