

Youth Care Coordination

Targeted Case Management Plus (TCM+)

TCM Plus is a special service that helps youth who are struggling with serious mental health or substance use challenges. A TCM Care Coordinator works one-on-one with the youth and their family to help them connect with the right doctors, therapists, and service providers.

Special Features

Individualized Support

System coordination to support the child's medical, social, and educational needs.

Customized Goods & Services

Items like art supplies, therapeutic toys, or camps to help reach treatment goals.

Family Peer Support

Advice and support from specialists who have raised children with similar needs.
