

Youth Care Coordination

Support for Your Family's Needs

Youth Care Coordinators work with you to build a team of supportive adults that help:

- ❖ Promote Child and Family Wellbeing
- ❖ Connect to Needed Resources
- ❖ Build on Family Strengths

Youth Care Coordination (YCC) connects your family with helpful resources like mental health care, respite care, family support groups, art/music therapy, and/or animal-assisted therapy

 **Share Your Story**

You, your children, and any involved adults you choose to invite meet with a Youth Care Coordinator to share your family history and your hopes for the future.

 **Create a Family Plan**

You and your team work together to decide how to best support your family.

 **Make Progress**

Your team meets regularly to support your family's needs and adjust your plan as needed.
